

**The Sixth International Symposium
on Computer, Consumer and Control**
June 30 - July 3, 2023 Taichung, Taiwan

Special Sessions Call for Papers
**The Sixth International Symposium on Computer, Consumer
and Control, 2023**

Session organizer : Prof. Jun-Juh Yan , Prof. Hang-Hong Kuo

Institution : National Chin-Yi University of Technology

E-mail : jjyan@ncut.edu.tw

Session title: ***Robust Control and Signal Processing***

This special session includes topics with Technology, Innovation, Research & Development, Automation, Robotics, Digital Redesign Technology, Cognitive Systems, Digitalization, Secure communication, Process Automation, Performance Optimization. Manuscripts dealing with the implementation and development of the latest supercomputing technologies that are transferable to the above areas also fall within the scope of this special session. Prospective authors are invited to submit original papers to the Special Session.

Topics/Areas

We invite academic researchers and industry professionals from a broad range of disciplines to submit to this special issue. Topics of interest include, but are not limited to:

- Technology, innovation, research & development
- Chaos synchronization
- Digital redesign technology
- Artificial intelligence
- Secure communication
- Robotics
- Adaptive control
- Performance optimization

All papers accepted and registered for presentation will be published in the conference proceedings, and excellent papers will be recommended for publication in the special issue of SCI(E)/ EI journals. Please note that papers must submit via the submission system website and meet the format of IS3C2023.
